WITH HEATHER PERRY
Heather Perry discovered her love for java more than a decade ago. This renowned barista began her coffee career at the tender age of 11 by washing dishes and sweeping floors in her parent’s coffeehouse. At 15, Heather worked behind the espresso machine and used her creativity to experiment with different drinks and make them her own.

Years of dedication to her craft paid off. Perry has been named United States Barista Champion in 2003 and 2007, plus a Western Region Champion in 2004, 2005, 2006 and 2007. She has also appeared on many TV shows including *What’s Hot What’s Cool* on the Food Network and *BIG* on the Discovery Channel where her name was put in the Guinness Book of World Records for building the world’s largest espresso machine.
